Top Coming Two Year Old Angus Bulls

From A Time Proven Cow Herd.

Dear Cattlemen:

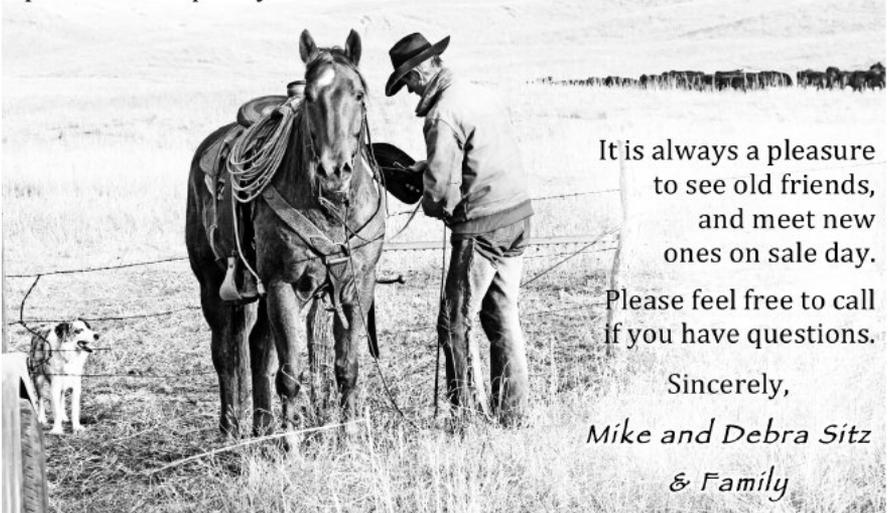

Take this opportunity to own a Two-Year-Old Angus Bull from an established and reputable herd. With over 90 years of breeding continuous cow families, combined with three generations of Angus knowledge, you can buy with confidence.

The cowherd is time proven with all bloodlines tracing back to the original cow families first owned by grandfather Will Sitz, in 1923. Efficient cow lines have emerged by staying on track, avoiding fads, and being committed to raising fault-free cattle.

Minus the baggage of excessive frame size and birth weights, we offer functional, eye appealing bulls from these time proven cow families. Our customers appreciate the way our bulls are managed; resulting in sound, range ready bulls.

Selling is the very top of our 2014 bull crop. All are virgin bulls with the exception of those we used within our own herd, and those have Trich tested negative.

After weaning the bulls are put on a ration to gain two pounds per day. As yearlings they were summered on grass without supplemental feed until the first part of November. At the present time they are being fed a high roughage ration in a large pasture with plenty of room to run.

It is always a pleasure
to see old friends,
and meet new
ones on sale day.

Please feel free to call
if you have questions.

Sincerely,
*Mike and Debra Sitz
& Family*

CAR Chinook 786

MSAR Chinook 9569

CAR Chinook 786 is a calving ease bull with a strong pedigree, and generations of maternal excellence. As an outside AI sire, he is one of the most consistent bulls at weaning we have used in a long time. He stamps each calf with good disposition, eye appeal and thickness from start to finish.

We are pleased with Chinook's daughters in production. At the present time our Chinook daughters have the most production in our herd. Their sons selling in our annual bull sale are the stand out ones, and as people view our heifers, the Chinook daughters are the first ones they ask about. It is rare to find a maternal bull that sires both such eye appealing daughters and sons.

The maternal grandsire, Sitz Traveler 6802, is a noted female producer. The dam and grand dam of Chinook 9569 are consistently high producing cows, having seven, and nine calves on record. The great-grand dam, 890, is an N Bar Emulation EXT daughter. She was a high producing, good uddered female as a fifteen year old, with a total of 14 calves on record. Her daughters are following this same pattern of consistent production.

MSAR Chinook 9569 is eye appealing with a good disposition, and slightly larger framed than our Forte and Right Time sires. We are pleased with the daughters in production.

First Breeding Season Coverage

All bulls selling for \$3000 or more will be covered 50% by Mike Sitz Angus if they are injured during their first breeding season. First breeding season is defined as the 60-day period following the first turnout of the bull on injuries that occur in the breeding pasture. 50% of the value of the injured bull, minus one-half salvage value, will be given as a credit in a future sale or toward a replacement bull if one is available. As a two-year-old bull, the minimum salvage value will be valued at \$1750. Salvage value will be split equally between Mike Sitz Angus and the buyer. A veterinarian must diagnose all injured bulls. Please notify us as soon as possible should an injury occur and prior to the injured bull being sold for salvage. All claims must be made by September 1, 2016. This is not mortality insurance. This does not cover poor management or neglect.
